DIPLOMA IN INFORMATION TECHNOLOGY (L4/L5)

COURSE DESCRIPTION

The Qualifi Diploma in Information Technology provides a career path for learners who wish to develop a broad base of knowledge and skills that will enable them to work in a variety of roles and the IT industry. Learners will also learn about entrepreneurship in a techno environment. The qualification is flexible in that it offers elective choices of web design or e-commerce – the latter being much in demand in modern business.

The technical skills and knowledge delivered through the successful achievement of the qualification are required and recognized internationally. Learners will also learn about entrepreneurship in a techno environment.
